

## Specialty Material Fastener Experts

Extreme Bolt & Fastener focuses on specialty material fasteners for severe corrosion, extreme temperature, high strength, and ultra-pure environments.

## Fasteners You Need Now

- Specialty alloy, ceramic & polymer fasteners
- Large inventory for fast shipping  
(MS, NAS, MIL, AMS, ASME and other standards)
- Custom-made fasteners per print
- Legacy, hard to find fasteners
- Small quantity production runs
- Modified aerospace or military standards  
(change in materials or dimensions)

## In-Depth Material Knowledge

Extreme Bolt & Fastener serves many diverse industries including government laboratories, aerospace, naval and military sectors. Our engineering team can offer you world class knowledge and guidance on selecting the best materials for your challenging application.

### Metals & Alloys

- 17-4PH
- 254 SMO
- 310 Stainless
- A286
- AL6XN
- Alloy 20
- Alloy 330
- Duplex Steel
- Hastelloy
- Incoloy
- Inconel
- Molybdenum
- Monel
- MP159
- MP35N
- Nickel 200
- Nimonic
- Nitronic
- Tantalum
- Titanium
- Tungsten
- Waspaloy
- Zirconium

### Polymers

- PEEK
- PFA
- PTFE
- PVDF
- PAI (Torlon)
- Polyimide (Vespel)

### Ceramics

- Alumina
- Zirconia

## Highest Quality Fasteners

At Extreme Bolt & Fastener we are committed to quality. We offer fully certified materials and fasteners per ANSI, ASME, ASTM, DIN, NACE, ISO, DFAR, and Military Specifications (Mil Spec, NAS, AN, and MS). In addition, we further demonstrate our commitment to quality with our ISO 9001: 2015 certificate.

### Screws & Bolts

- 12 point screws
- Button head screws
- Flat head screws
- Hex head cap screws
- Hex head bolts
- Pan head screws
- Self-drilling screws
- Set screws
- Socket head screws
- Security screws
- Shoulder bolts
- Vented screws
- Wedge Anchors
- Weld Studs

### Threaded Products

- Threaded rod
- Studs Hex nuts

### Nuts & Washers

- Hex nuts
- Jam nuts
- Lock nuts
- Washers
- Lock Washers
